【緊急通知】

尊敬的TVpad用戶

非常抱歉地通知大家 近日由於系統伺服器突發異常 可能會影響到部分使用者的正常使用 我司的技術團隊正與ISP 網路運營商 共同努力 使其儘快恢復正常。請大家給予我們諒解和支持

啟創科技 香港 有限公司

【Urgent Notice】

Dear users

We are sorry to inform you that recently an unexpected condition was encountered by the servers, which may affect the normal use of some users. However, our technical team is working hard together with the ISP (Internet service provider) to solve the problem.

We hope you understand and support us!

June 17 at 7:16pm

**Chris Jones** Ka Man Erica Doll the service works fine! I've been using my M121 box for 1.5 years now! There's something called the FIFA World Cup on at the moment. The last time Chinese servers went funny was the China Olympic Games, so expect it, next year for the British Commonwealth Games, and the Olympics a year later. As I said in my post I would have cancelled my subscription by now.

June 16 at 10:24pm

**Adam Fong** you havent been around long enough, its been happening since last year chinese spring new year, plus their long Labour day holiday 1 week breaks ...

June 22 at 12:01am

**Chris Jones** I've been around long enough Adam. Everytime the Japanese play bumper ships with a Chinese Spy Fishing boat, the Japanese channels disappear. Now they've got Korean, Vietnamese, Phillipino, Malaysian, Thai, Indian to fall out with and I'll bet those will disappear as well.

June 22 at 2:45pm

**Chris Jones** I'm glad I'm not paying a monthly subscription. I'd have cancelled by now.

June 16 at 10:19pm

Freshman		I watched CCTV 5 HD using BETV HD, and the video definition was much lower than it was several days ago It is because the video source was switched to a lower definition to keep the video playing smooth even when too many people are watching the same channel at the same time? CCTV5

TVpad 現在暫時不要下載 故障暫未解除。更新大家下載。 **Francis Chan** Looks like your apps download system has capacity problem and your server needs to be upgraded to cater for the sudden surge in download transaction volume for the new app release. I also suspect that your apps download system has specifically designed not to allow TVpad hardwares 1, 2 and 3 to download the latest app release to coincide with your TVpad4 hardware promotion strategy. **Francis Chan** Looks like your apps download system has capacity problem and your server needs to be upgraded to cater for the sudden surge in download transaction volume for the new app release. Simon Lui I have this problem too if I try to check for upgrade. My TVPAD2 is already on v3.9.4I think it is already the latest (from approx one year ago??) ...but the system still try to download a new firmware and will stuck on 6%. Don't bother, I only use TVPAD2 for TVB news and as a backup system in case my Mi Box (much cheaper with lot more contents) stop working. TVPAD is the past, they are killing their own business becoz they don't take care of existing customer. I will only upgrade if there is a upgrade special which will cost me less then \$50 USD (which BTW is still more expensive then a new Mi Box).

My TVPAD2 is already on v3.9.4I think it is already the latest (from approx one year ago??) ... but the system still try to download a new firmware and will stuck on 6%. Don't bother, I only use TVPAD2 for TVB news and as a backup system in case my Mi Box (much cheaper with lot more contents) stop working. TVPAD is the past, they are killing their own business becoz they don't take care of existing customer. I will only upgrade if there is an upgrade special which will cost me less than \$50 USD (which BTW is still more expensive then a new Mi Box). January 8 at 7:11am

no big surprise
the thing I like:
I can install apk app
channels change very fast

the thing I dont like:
live channels video and audio quality similar to tvpad3, bad.

Just read on the tvpadfans forum that an apps market can be found within 万花筒視頻 and from there one can download and install 奇珀市场 and 当贝市场 . ES 文件浏览器 is available from both those apps, while the JB versions of YouKu, Tudou, etc. are available from 奇珀市场 .

How's the HKTV channel and their replay quality? Also, any other Cantonese channels in addition to those on the previous generations of TVpad?

There is no HKTV live channel. They only have the 2 current drama series. No Korean or Japanese live channel apps and no korean drama app as of yet either. There is also no 粤海宽屏2(3). Only 港粤网络电视 and 港粤快看. Of course you still have BETV and BETVII. I haven't fully tested the unit yet so I could be wrong.

[TVB and Tvpad Agreement \(True or False\)?](#)

» by [Dssjr](#) » Tue Dec 09, 2014 11:44 pm

Hey fellow tvpad members. So there is a rumor that TVpad and TVB has signed an agreement. Meaning TVpad can now legitimately start selling Tvpad with TVB content!!! That is great news!!!! However, I don't know how true is this rumor. If anyone here can confirm the agreement that would be great! Why do I have doubt of this rumor? Let me list a few questions that I have on my mind.

1. what kind of agreement did they sign with TVB?
2. If it is true, why doesn't TVpad's official site advertising Tvpad4 have any TVB logos or pictures of their TVB dramas? (I would be pimping out TVB logo and pics all over if I was tvpad).
3. Wouldn't this agreement piss off Dish Network, Comcast, Fairchild and other cable/satellite services around the world that has license agreements with TVB? Even their own TVB Anywhere box!!!
4. also wouldn't Tvpad start collecting subscription fee for their boxes now? Since they have legitimate license with tvb?

Love to hear everyone's thought on this issue. Oh...Merry Xmas and Happy new years!!!! Long Live TVPAD!!!!

I agree with you and highly doubt if that's true. I bet this will be the end of TVpad if they start collecting subscription fee on the same level as, if not more than, what TVB is charging for their TV Everywhere service in Europe. On the other hand, if there were an agreement, TVB will most likely request TVpad to stop streaming TVB contents on all existing TVpads (or request subscription fee), which will piss off every existing TVpad users who will never buy another TVpad again 😐

Perhaps it is an agreement (for a fee) between the two that would allow TVpad to carry Hong Kong TVB's off-the-air programs on their boxes, including the older models. This would not be in conflict with Hong Kong TVB's Network Vision subscription programming in Hong Kong and TVB Anywhere service in Europe, as well as TVB(USA)'s programming in the U.S.

TVpad should post a copy of the agreement, if any, on their website to remove any doubt about the legitimacy of their TVB program source.

[Re: TVB and Tvpad Agreement \(True or False\)?](#)

But the thing is, if there is any licensing fee from TVB, it will most likely turn into subscription fee for the TVpad end user. On the other hand, I believe TVB, as a publicly traded company, will not partner with someone that carries illegal (or at least questionable) content from any TV stations. That means TVpad will either have to become a sole TVB content reseller, or pay licensing fee to every content owner. I don't think TVpad can afford either of those options, IMHO 😊

Could be a one-time per unit fee that has already been factored into the price of TVpad4. A reasonable amount would be US\$10 per unit.

Another guess is that it is not actually a licensing agreement but rather one that will let TVpad off the hook as long as a 'per unit' royalty is paid to TVB. 😊

标题: TVpad, 谢谢你走进我们的生活 [\[打印本页\]](#)

作者: 澳洲奥利奥 时间: 2012-8-18 20:59:42 标题: TVpad, 谢谢你走进我们的生活

本帖最后由 澳洲奥利奥 于 2012-8-18 21:05 编辑

提起tvpad, 可能我使用的时间没有其他前辈那么长时间, 但她在短短几个月内给我带来的快乐, 却是丝毫不输给那些老玩家的。

七月初的某一天, 我在澳大利亚墨尔本Glen Waverley华人区的一家小店门口路过, 无意中看到一张海报写着“使用tvpad免费看奥运和大部分精彩国内电视”, 这立即引起了我强烈的好奇心, 有什么东西这么神奇不用装卫星天线就可以收看国内的电视节目? 走进店家亲眼看到这个黑乎乎的可爱小盒, 我简直不敢相信这个小东东会有这么强大的力量? 回家后立即上tvpad官网研究了大半天, 但说实在的, 还是不敢百分百相信她有这么强大的能力, 而我身边又没有朋友拥有这个设备, 所以自然而然我就成了朋友圈子里第一个吃螃蟹的人。

从在官网下单到tvpad运到公司居然只用了三天时间, DHL的速度真是一流。回家第一件事就是连上电视和网络, 安装存储卡自带的软件, 作为Android的忠实拥护者, 这些流程对我来说实在是太熟悉不过了。而当久违而又熟悉的中央1-5台, 湖南卫视, 浙江卫视, 东方卫视等一大批我在国内天天观看的电视台出现在我的电视上流畅而又清晰的播放时, 我只差没有流下激动的泪水了。

的确, 来澳洲快十年了, 由于自己没有足够的经济实力购买卫星天线(就是我们俗称的锅了), 而住的小Unit又不适合安装那么大的锅, 自己也就越来越少有机会收看国内的电视节目了, 每次逢年过节去一些装了锅的朋友家收看春晚或者其他电视剧的时候, 他们都有说不出的优越感, 也有朋友可能会问, 为什么不用电脑看, 可我实在不想对着狭小的电脑屏幕收看音质和画质并不优秀并且时常卡顿的电视节目, 而躺在沙发上慵懒的收看电视节目的那种乐趣也荡然无存。

我觉得自己购买tvpad的时机实在是太好了, 因为她就在伦敦奥运会开幕前的一两个星期飘然而至, 而自己又在奥运开幕后有一个星期的假期, 墨尔本和中国只有两小时的时差, 所以整整一个星期我都在家收看中央5台, 如果是以往没有tvpad的日子里, 我只能收看澳洲本地电视台节选的奥运项目, 而其中百分之百是看不到我们中国奥运健儿的, 有了tvpad, 有了CCTV-5, 我随时随地都可以打开电视收看咱们中国人自己的奥运。所以在那一个难忘的一个多星期里, 我观看了林丹和李宗伟那惊心动魄的羽毛球大战, 也目睹了女排姑娘们艰难战胜韩国队, 却遗憾败给日本队的悲痛时刻, 我看到了乒乓球项目席卷奥运的强大气势, 却也看到了陈一冰含泪夺取吊环银牌的悲壮画面。我无法想象如果没有tvpad, 我还能否有机会感受到这样四年才有一次的精神和视觉大餐, 还有感受作为中国人的自豪和骄傲的机会。

不仅仅是奥运会, tvpad也让我和数年不见的老朋友们重新相聚, 当年在国内最爱看的就是湖南卫视的“快乐大本营”, 如今每周六晚上, 我又可以准时和这个老朋友相会, 并且能够开开心心的大笑一回, 这无疑是忙碌一周后一个最好的精神放松。而近年来无数内容新颖, 样式各异的新型综艺节目更是让人眼前一亮, 东方卫视的“梦立方”和“今晚80后”, 湖南卫视的“百变大咖秀”, 更有近期红遍全中国的浙江卫视的“中国好声音”, 都成为我每周必看的珍爱, 以前和国内的朋友聊天, 对于当红的电视完全毫不知情, 现在完全没有隔阂, 甚至许多我看过的节目他们反倒没有看过, 而每晚观看的各地新闻, 更是让我对国内的情况了如指掌, 不是回国, 胜似回国, 这全都得归功于tvpad啊。

可以说tvpad的出现, 彻底改变了我的生活, 以前每天下班回家, 在公司用完电脑, 回家再看自己的电脑, 除了电脑还是电脑。现在下班回家, 打开电视, 就可以收看国内频道, 和国内朋友零距离交流。而tvpad频道内容之丰富, 画面效果之出色, 又没有丝毫停顿感, 实在是让看过的人都叫好不绝。更不用象一些家庭搬个大电脑连在电视上, 即影响居室之美观, 增加耗电量, 又造成资源的重复浪费, 实在是海外华人收看国内电视的必备之宝啊。

现在那些装卫星天线的朋友来我家, 看着从我家这个小小的黑盒子里放出效果一流的电视节

目，而投资又不足他们的五分之一甚至更少，一个个都睁大了眼睛说不出话来。而那些没有安装卫星天线的朋友，更是纷纷向我咨询哪里才能买到这么好的宝物。

Tvpad的Facebook网页也是非常周到，每周都有精彩节目的预告，让我知道什么时间收看精彩的电视节目，更有不定期的使用心得精选，让我们这些盒粉有更好的用户体验。

当然，黑盒虽好，也不是一点瑕疵也没有的，首先黑盒的外观设计，像极了apple TV，做为apple最大的竞争者Android，外观有必要这么像吗？其次，我知道tvpad最近推出了一款Android手机使用的app，但只适用最新的M121S，我的M121还不能用，另外可不可以在这个app中包含一个精彩电视的推荐或者各台的节目时间播出表呢，这样我们就可以随时查看具体时间而不会错过精彩节目了。

Tvpad的出现，改变了海外华人看电视的方式，由家家户户每人一台电脑单独看，变成了一家人重新坐回电视机前一起看电视的局面，这也正是千千万万中国人以前，现在和将来看电视的方式，这其中也渗透了我们中国人最注重的一个理念，那就是—家庭，以及围绕家庭所展开的活动。

谢谢你，tvpad，也期待你给我们的下一次惊喜。

Author: Australian Olio	Time: 20:59:42, 08/18/2012	Title: TVpad, thank you for playing a role in our life.
This post was last edited by Australian Olio at 21:05, 08/18/2012.		
Though I have not been using TVpad for as long as other users, TVpad has brought me tremendous delight for the past several months.		
<p>One day this July, when I walked past by a small store in the Chinese community - Glen Waverley in Melbourne, Australia, I saw a poster that read "Use TVpad to watch, for free, the Olympic Games and most TV channels in mainland China". It immediately sparked my intense curiosity. I wondered how the TV programs of mainland China could be watched here without satellite antenna. When I entered the store and saw this lovely little black box, I could hardly believe that such a little thing could be so powerful. After I returned home, I visited the official website of TVpad and studied the product for quite long. To be frank, however, I still could not 100% believe its power. None of my friends around me had this device, I became the first person in my friend circle to use this product.</p>		
<p>After I placed the order on the official website, it took only three days for the TVpad to be delivered to my company. The service of DHL was superb. Once I arrived home, I connected the TVpad to my TV set and the Internet, and installed the software stored in the storage card. As a loyal Android advocate, I know these flows by heart. When CCTV1 to CCTV5, Hunan TV, Zhejiang TV and Dragon TV, which I watched every day in mainland China and had not been able to watch for ages, were playing clearly and smoothly on my TV set, tears of joy all but came to my eyes.</p>		
<p>I had been living in Australia for nearly ten years. As I couldn't afford a satellite antenna (also known as a "dish") and a large "dish" is unsuitable for the small unit in which I live in, I seldom have the opportunity to watch the TV programs of mainland China. Each time I watched the CCTV's Spring Festival Gala or any other TV drama at my friends' homes where "dishes" were installed, they seemed to have this ineffable sense of superiority. Why not just watch them on the computer then, you might ask. Honestly, I do not want to watch TV on a small computer screen that has poor audio and video quality and often gets stuck, and I won't be able to enjoy watching TV while relaxing on my sofa.</p>		
<p>I think that it was the right time for me to buy a TVpad, because it came just a couple of weeks before the London Olympic Games. I had a one-week holiday after the opening of the Olympic Games, and the time difference between Melbourne and Beijing is only two hours. So I spent the whole week watching CCTV5 at home. Without TVpad, I would have only been able to watch the Olympic Games events selected by the local Australian TV station, but not all the events involving Chinese athletes. With my TVpad and CCTV5, I could watch the events anytime and anywhere, and experience the Olympic Games as if I were home in China. During that unforgettable week, I watched the thrilling badminton final between Lin Dan and Lee Chong Wei; and the hard-earned victory against the Korean team that the Chinese female volleyball team enjoyed before being defeated by the Japanese team in heart-breaking match. I admired that the Chinese table tennis dominated at the Olympic Games, I also saw the moving scene where Chen Yibing reaped the silver medal for rings. Without TVpad, would I have been able to enjoy this rare event that happens only every four years so thoroughly and take pride in being a Chinese? I cannot imagine it.</p>		
<p>Besides watching the Olympic Games, TVpad allows me to see my "old friends" again that I have not seen for years. When I was in mainland China, my favorite TV program was "Home of Happiness" of Hunan TV. Now, every Saturday evening without a fail, I can meet this "old friend" and have a good laugh, fully relaxing after a week's busy work. The many novel and diverse variety shows that have emerged in recent years attract my attention as well. Every week, I watch the "Dream Cube" and "Born in the 80s" of Dragon TV, the "Master Impersonators" of Hunan TV, and the "Voice of China" of Zhejiang TV, which has become one of the most popular programs all over China. Before when I chatted with my friends in mainland China, I was totally out of touch as to what the popular TV programs at the time were. Now, I have no difficulty chatting with my friends about the TV programs and I even know about more than they do. The local news broadcast every evening allows me to stay in touch with the domestic conditions of China. Thanks to my TVpad, it seems as if I were home again.</p>		
<p>My TVpad has thoroughly changed my life. In the past, I used a computer in my office and again used my personal computer at home; I had to use a computer anywhere. Now, when I return home, I turn on my TV set and watch the TV channels of mainland China, thus maintaining close contact with my friends in China. TVpad provides abundant TV channels with excellent video quality and no interruptions. It is truly amazing. I don't need to connect a large computer to my TV set, like in some families, which affects the layout of my room, increases electricity consumption and wastes resources. TVpad is really the essential tool for overseas Chinese to watch TV programs of mainland China.</p>

Now, my friends who have satellite antennas installed at home are dumbfounded by my little black box that plays TV programs with excellent quality and yet costs only one-fifth of what they have invested or even lower. My friends who don't have satellite antennas installed at home, one after another, asked me where they could buy such good products.

The Facebook webpage of TVpad has been very considerate and provides advance notice for wonderful programs every week, allowing me to know when they are to be broadcast. In addition, the webpage gives use tips from time to time to provide TVpad fans with better user experience.

This black box, of course, is not flawless. First, the appearance design of TVpad resembles very much that of Apple TV. It is unnecessary for TVpad, which is the biggest competing Android product of Apple, to have such a similar appearance. Second, I know that an Android App for TVpad has been launched recently. However, this App is supported by only the latest M121S, but not by my M121. In addition, is it possible for this App to include recommendations for TV programs or the schedules of the programs on each channel? Thus, we can check the specific schedules, without missing out on any programs.

TVpad has revolutionized the way overseas Chinese watch TV. Instead of watching TV on computers, the whole family sits in front of a TV set and watch TV together. This is how thousands and thousands of Chinese people watched TV, are watching TV, and will watch TV. It promoted the most important idea that all Chinese people identify with – family, and everything that families do.

Thank you, TVpad! I look forward to the next pleasant surprise from you.

Commissioner for Trademarks of the
United States Patent and Trademark Office

**REQUIREMENTS TO MAINTAIN YOUR FEDERAL
TRADEMARK REGISTRATION**

**WARNING: YOUR REGISTRATION WILL BE CANCELLED IF YOU DO NOT FILE THE
DOCUMENTS BELOW DURING THE SPECIFIED TIME PERIODS.**

Requirements in the First Ten Years*

What and When to File:

First Filing Deadline: You must file a Declaration of Use (or Excusable Nonuse) between the 5th and 6th years after the registration date. *See 15 U.S.C. §§1058, 1141k.* If the declaration is accepted, the registration will continue in force for the remainder of the ten-year period, calculated from the registration date, unless cancelled by an order of the Commissioner for Trademarks or a federal court.

Second Filing Deadline: You must file a Declaration of Use (or Excusable Nonuse) **and** an Application for Renewal between the 9th and 10th years after the registration date.*
See 15 U.S.C. §1059.

Requirements in Successive Ten-Year Periods*

What and When to File:

You must file a Declaration of Use (or Excusable Nonuse) **and** an Application for Renewal between every 9th and 10th-year period, calculated from the registration date.*

Grace Period Filings*

The above documents will be accepted as timely if filed within six months after the deadlines listed above with the payment of an additional fee.

**The United States Patent and Trademark Office (USPTO) will NOT send you any future notice or
reminder of these filing requirements.**

***ATTENTION MADRID PROTOCOL REGISTRANTS:** The holder of an international registration with an extension of protection to the United States under the Madrid Protocol must timely file the Declarations of Use (or Excusable Nonuse) referenced above directly with the USPTO. The time periods for filing are based on the U.S. registration date (not the international registration date). The deadlines and grace periods for the Declarations of Use (or Excusable Nonuse) are identical to those for nationally issued registrations. *See 15 U.S.C. §§1058, 1141k.* However, owners of international registrations do not file renewal applications at the USPTO. Instead, the holder must file a renewal of the underlying international registration at the International Bureau of the World Intellectual Property Organization, under Article 7 of the Madrid Protocol, before the expiration of each ten-year term of protection, calculated from the date of the international registration. *See 15 U.S.C. §1141j.* For more information and renewal forms for the international registration, see <http://www.wipo.int/madrid/en/>.

NOTE: Fees and requirements for maintaining registrations are subject to change. Please check the USPTO website for further information. With the exception of renewal applications for registered extensions of protection, you can file the registration maintenance documents referenced above online at <http://www.uspto.gov>.

NOTICE OF OPPOSITION

Opposer, Create New Technology (HK), Limited, a limited company of Hong Kong located at Unit 4, 7/F, Bright Way Tower, No. 33, Mong Kok Road, Kowloon, Hong Kong, hereby opposes registration of the mark TVPAD by Madison Ave B, a limited liability company of New Jersey with its principal place of business located at 990 Chedarbridge Ave, Brick, New Jersey 08723, that is the subject of Application Serial No. 85728075, published in the Official Gazette on March 12, 2013, and requests that registration to Applicant be refused.

As grounds in support of its opposition, Opposer(s) asserts as follows:

COUNT 1

LIKELIHOOD OF CONFUSION

The grounds for opposition are as follows:

1. On information and belief, Applicant is a limited liability company organized under the laws of New Jersey with a principal place of business at 990 Chedarbridge Ave,

Brick, New Jersey 08723.

2. Since at least as early as October of 2011, Opposer has sold or distributed “set-top boxes, computer terminals, monitors, electronic pads, computer hardware and computer peripherals” (hereinafter “Opposer’s Goods”) under the mark TVPAD (hereinafter “Applicant’s Mark”) in the United States.
3. Since at least as early as October of 2011, Opposer has sold or distributed “set-top boxes, computer terminals, monitors, electronic pads, computer hardware and computer peripherals” under the mark TVPAD in the Hong Kong, China, Canada, Australia, the United Kingdom, Singapore, South Korea, Japan, Malaysia, Indonesia, Philippines, France, Italy, Germany, Russia and South Africa.
4. Through extensive use, advertising, marketing and promotion of Opposer’s goods under the TVPAD mark, Opposer has built up, at great expense and effort, a valuable reputation and goodwill symbolized by its strong and distinctive TVPAD mark.
5. By reason of the adoption and continuous use of the TVPAD mark in connection with Opposer’s set-top boxes, computer terminals, monitors, electronic pads, computer hardware and computer peripherals, Opposer has established valuable public recognition in the TVPAD mark as identifying Opposer as the trusted source of said goods. By way of Opposer’s substantial and exclusive use of the TVPAD mark in U.S. commerce since October 2011, the TVPAD mark has achieved a distinctive quality and has acquired special and particular significance as identifying Opposer and its goods.
6. Nevertheless, on September 17, 2012, Applicant filed U.S. Trademark Application Ser. No. 85728075 for the mark “TVPAD” (hereinafter “Applicant’s Mark”) for use

in connection with “Computer hardware and computer peripheral devices; Computer hardware and computer peripherals” in International Class 9 (hereinafter “Applicant’s Goods”).

7. Applicant’s alleged date of first use in U.S. interstate commerce is listed as June 1, 2012, nearly eight months (8 months) after Opposer first began using its TVPAD mark.
8. Applicant’s U.S. filing date is listed as September 13, 2012, approximately eleven months (11 months) after Opposer first began using its TVPAD mark.
9. Applicant’s Mark is identical, or very similar to, Opposer’s mark.
10. Applicant’s Goods are identical, or closely related to, Opposer’s goods.
11. Given the aforementioned dates of first use, there is no dispute as to priority of use.
12. Applicant’s Mark is confusingly similar and substantially identical to Opposer’s TVPAD mark in connection with the goods with which each mark is used.
13. Registration of Applicant’s Mark and continued use by Applicant on its goods is likely to cause confusion, mistake and deception as to the origin, sponsorship and approval of Applicant’s Goods by Opposer.
14. Continued use of Applicant’s confusingly similar trademark on identical or closely related goods would irreparably damage and injure the valuable reputation and goodwill Opposer has established over the last two years.

WHEREFORE, Opposer prays that the opposition be sustained and that registration to Applicant be refused.

Dated: April 11, 2013

Respectfully submitted,

By: /john Alumit/

1.3.It shall be deemed that you have accepted these terms when you (1) have clicked the approval option or the acceptance option which is displayed when downloading or installing software application, or (2) have actually used the relevant software application via TVpad Store.

About

2.Terms of Sale on TVpad and TVpad Store

2.1.Various payment methods will be provided by CNT for you to assist your purchase of TVpad and to obtain license for software application of third party via TVpad Store. You agree to abide by any relevant service terms or other legal agreements entered in by and between you and CNT or third party. Your use of the designated payment method shall be bound by these terms or agreements. You agree that CNT reserves the right in its discretion to add or delete payment methods without any notice.

2.2.You agree to abide by any and all applicable tax laws, including the declaration and payment of any taxes arising from using TVpad or software application obtained through TVpad Store, and agree to declare and pay all applicable taxes.

2.3.All sales of products (which may include software licenses) are final. Prices for products offered via the TVpad Store may change at any time, and the TVpad Store does not provide price protection or refunds in the event of a price reduction or promotional offering. If a product becomes unavailable following a transaction but prior to download, your sole remedy is a refund. If technical problems prevent, or unreasonably delay, delivery of your product, your exclusive and sole remedy is either replacement or refund of the price paid, as determined by CNT.

About

2.4.Your use of the TVpad Store includes the ability to enter into agreements and/or to make transactions electronically. You acknowledge that your electronic submissions constitute your agreement and intent to be bound by and to pay for such agreements and transactions. Your agreement and intent to be bound by electronic submissions applies to all records relating to all transactions you enter through the TVpad Store, including notices of cancellation, policies, contracts, and applications. In order to access and retain your electronic records, you may be required to have certain hardware and software, which are your sole responsibility. CNT is not responsible for typographic errors.

3. TVpad and TVpad Store

3.1.You agree to use TVpad for purposes only allowed by any applicable laws and regulations or rules or codes accepted in the jurisdictions. You agree to abide by all applicable export restrictions, including but not limited to any export administration regulations issued by Commerce Department of each country and sanction plan by Office of Foreign Assets Control under Ministry of Finance of each country. The use of TVpad by you shall be deemed that you acknowledge and warrant that you will comply with all export regulations and other applicable regulations of each country. You agree to abide by all local laws and regulations relating to the download, installation and /or use of software application.

3.1.1.CNT does not recommend software applications other than those provided through the TVpad Store be installed into the TVpad. If user installs any software application not provided through the TVpad Store into the TVpad, the user herein

About

3.1.1.CNT does not recommend software applications other than those provided through the TVpad Store be installed into the TVpad. If user installs any software application not provided through the TVpad Store into the TVpad, the user herein agrees to be responsible and to assume all risks and liabilities resulted from the installation and use of the software application.

3.1.2.User of the TVpad herein agrees not to use the TVpad for any illegal purposes, including using the TVpad for viewing copyrighted content. The user herein agrees to be responsible and to assume all risks and liabilities resulted from any illegal use of the TVpad.

3.2.You agree not to access (or try to access) TVpad in any ways other than through the interface provided by CNT, unless otherwise specifically permitted by the separate agreement between you and CNT. You shall agree not to access (or try to access) TVpad in any automatic ways (including script, crawlers or similar techniques), and ensure to comply with instructions (in electronic and/or written form) provided with the TVpad.

3.3.TVpad Store is available for individuals aged 13 years or older. If you are 13 or older but under the age of 18, you should review this agreement with your parent or guardian to make sure that you and your parent or guardian understand it.

About

3.4.The TVpad Store may require you to register as a user. As a registered user of the TVpad Store, you may establish an account ("Account"). Don't reveal your Account information to anyone else. You are solely responsible for maintaining the confidentiality and security of your Account and for all activities that occur on or through your Account, and you agree to immediately notify TVpad Store of any security breach of your Account. CNT shall not be responsible for any losses arising out of the unauthorized use of your Account. You agree to provide accurate and complete information when you register with, and as you use, the TVpad Store ("Registration Data"), and you agree to update your Registration Data to keep it accurate and complete. You agree that TVpad Store may store and use the Registration Data you provide for use in maintaining and billing fees to your Account.

3.5.TVpad Store is selling you a license to use the Products. There are two (2) categories of TVpad Store Products, as follows: (i) those TVpad Store Products that have been developed by CNT, and which are licensed to you by CNT through the TVpad Store ("TVpad Products"); and (ii) those TVpad Store Products that have been developed, and are licensed to you, by a third-party developer ("Third-Party Products"). The category of a particular TVpad Store Product (TVpad Product or Third-Party Product) is identified on TVpad Store application. Once obtained from TVpad Store, that license forms a binding agreement directly between you and the publisher of that Product (the "Publisher") governing your use of that Product.

3.6.You agree that the TVpad Store and certain Products include security technology that limits your use of Products and

About

3.6. You agree that the TVpad Store and certain Products include security technology that limits your use of Products and that, whether or not Products are limited by security technology, you shall use Products in compliance with the applicable usage rules established by CNT and the Publishers ("Usage Rules"), and that any other use of the Products may constitute a copyright infringement. Any security technology is an inseparable part of the Products. CNT reserves the right to modify the Usage Rules at any time. You agree not to violate, circumvent, reverse-engineer, decompile, disassemble, or otherwise tamper with any of the security technology related to such Usage Rules for any reason - or to attempt or assist another person to do so. Usage Rules may be controlled and monitored by CNT for compliance purposes, and CNT reserves the right to enforce the Usage Rules without notice to you.

3.7. Certain content, Products, and services available via the TVpad Store may include materials from third parties. TVpad Store may provide links to third-party websites as a convenience to you. You agree that CNT is not responsible for examining or evaluating the content or accuracy and CNT does not warrant and will not have any liability or responsibility for any third-party materials or websites, or for any other materials, products, or services of third parties. You agree that you will not use any third-party materials in a manner that would infringe or violate the rights of any other party and that CNT is not in any way responsible for any such use by you.

3.8. CNT reserves the right to preview, examine, report, filter, modify, refuse or delete any or all software applications in the TVpad Store, and you shall agree to be responsible and liable for any and all risks resulted from, and in connection with

About

3.8.CNT reserves the right to preview, examine, report, filter, modify, refuse or delete any or all software applications in the TVpad Store, and you shall agree to be responsible and liable for any and all risks resulted from, and in connection with, the use of TVpad.

3.9.You agree that the TVpad product, the TVpad Store, the Products accessible through the TVpad Store, contain proprietary information and material (including but not limited to graphics, user interface, audio clips, editorial content, and scripts and software used to implement the above items) that is owned by CNT and/or the Publishers of the Products, and is protected by applicable intellectual property and other laws, including but not limited to copyright. You agree that you will not use such proprietary information or materials in any way whatsoever except in compliance with this Agreement. No portion of the TVpad product, the TVpad Store, and the Products, including content accessible through the Products, may be reproduced in any form or by any means, except as expressly permitted in these terms.

3.10.Notwithstanding any other provision of this Agreement, CNT and the Publishers reserve the right to change, suspend, remove, or disable access to any Products, content, or other materials accessible through the TVpad Store at any time without notice. In no event will CNT be liable for making these changes. CNT may also impose limits on the use of, or access to, certain features or portions of the TVpad Store, in any case and without notice or liability.

4. Update

About

4. Update

4.1.CNT will from time to time check the existence of update program of TVpad, such as the error correction and patching program, enhancement, missing plug-ins and new version (collectively referred to as "Update Program"). You will have the option to accept the update programs for installation. The installation of these update programs shall be deemed that you agree to automatically request or accept the update program of the kind.

5. Export Restriction

5.1.The software application provided by TVpad Store may be faced with export restriction or control by some countries/regions or areas. You agree to abide by all applicable international export laws and regulations of each country.

6. Compensation

6.1.You agree that, to the maximum extent permitted by law, you shall be responsible for any claim, legal action, lawsuit and lawsuit process, and all loss, claim request, damage, expense and cost (including reasonable attorney fees) arising from your use of TVpad (including downloading, installing or using any software application), or from violation of the provisions set forth herein.

About

7.Termination

7.1.The terms set forth herein will remain in full force and valid unless you or CNT terminates these terms in accordance with the following provisions.

7.2.You can stop using TVpad and any software application downloaded using the TVpad Store if you want to terminate the terms set forth herein. However, you remain responsible for all liabilities you incurred that arose from the use of TVpad before termination.

7.3.In the event (A) you violates any terms specified in this agreement; or (B) CNT is required by law to terminate theses provisions; or (C) CNT decides not to provide TVpad any more, CNT shall has the right to terminate these terms any time.

7.4.If you fail, or CNT suspects that you have failed, to comply with any of the provisions of this Agreement, CNT, at its sole discretion, without notice to you may: (i) terminate this Agreement and/or your Account, and you will remain liable for all amounts due under your Account up to and including the date of termination; and/or (ii) terminate the license to the software; and/or (iii) preclude access to the TVpad store (or any part thereof). CNT reserves the right to modify, suspend, or discontinue the TVpad Store (or any part or content thereof) at any time with or without notice to you, and CNT will not be liable to you or to any third party should it exercise such rights.

About

7.5.The termination of these terms will be without prejudice to any legal right and obligation and responsibility .

8.Disclaimer

8.1.You acknowledge and agree that, to the maximum extent permitted by law, you shall be liable for all risks arising from the use of any software application from TVpad and download or acquired by you through the TVpad Store; and TVpad Store is provided on the basis of "status in quo" and "availability" and no warranty in any form will be provided.

8.2.You shall be solely and fully liable for all responsibilities and risks arising from the use of any software application from TVpad and download or acquired by you through the TVpad Store; you shall bear all responsibilities in respect to the damage to your computer system, mobile device or other devices or data loss arising from such uses.

8.3.CNT further states that, to the maximum extent permitted by applicable law, CNT shall not, in respect to any software application download or acquired by you through the TVpad Store and TVpad itself, provide any expressed or implied warranty and conditions in any form, including but not limited to implied warranty and condition of merchantability, fitness for a particular purpose, non-infringement of others' rights, etc.

About

9.Limitation of Liability

9.1.You expressly understand and agree that neither CNT nor its affiliated companies shall be liable for any direct, indirect, incidental, special, consequential or punitive damages (including loss of any data) arising out of the use of TVpad or of any software application download or acquired from TVpad Store, regardless of whether these liabilities arose from contractual obligations, negligence, or intentional tort, and whether CNT or its representative have been advised of the possibility of such damages.

10.General

10.1.These terms constitutes the complete legal agreement between the parties with respect to the subject hereof, and regulates the use by you of TVpad, TVpad Store and its software application, and supersedes all prior agreements with respect to TVpad and software application entered in by and between you and CNT.

10.2.You agree that the failure of CNT to exercise or enforce any of its legal rights or remedies under the agreement (or under any applicable laws) shall not be deemed a waiver of those rights by CNT, and CNT shall be entitled to exercise those rights or remedies.

About

10.2. You agree that the failure of CNT to exercise or enforce any of its legal rights or remedies under the agreement (or under any applicable laws) shall not be deemed a waiver of those rights by CNT, and CNT shall be entitled to exercise those rights or remedies.

10.3. If any provision shall be held by a court of competent jurisdiction to be invalid, that provision shall be removed from these clauses without prejudice to remaining provisions, and the remaining terms will remain in full force and effect.

10.4. You understand and agree that every member of the CNT should be the third party beneficiary of these terms, and such other companies shall be entitled to directly enforce these terms, and advocate relevant rights and interests in accordance with these terms (or rights in their favor). In addition, other individuals or companies should not become a third party beneficiary of these terms.

10.5. Without prior written permission from other party, you or CNT shall not be allowed to transfer or shift rights hereof. Without prior written permission from other party, you or CNT shall not be allowed to assign to others any liability or obligation under these clauses.

Tvpad works, but nothing else

by **kaycal** » Fri Jan 09, 2015 7:56 pm

My house has two tvpads, one for each my parents. 1st and 2nd generations. We recently got Internet installed from Time Warner. The day it was installed, I hooked up and old linksys router to the tvpads, computer, xbox, and such. The network would be fine till the tvpad turns on. The network would just be dead and only one tvpad would work. Today, I bought a new asus router, hooked everything up and the problem would be the same. Anyone else ran into this problem?

try turning off your Asus firewall and see if it makes a difference. I would also check to see if the Time Warner modem has firewall enabled.

You need to setup your router with DHCP turn "ON"!

Just a thought. I presume your broadband download and upload speeds are fast enough and that a single TVpad when operating, isn't overwhelming the connection ?

It should be, 50D 5U. Network is running fine when its directly connected to the modem. Just major problem with the routers which I would like to use. Going to take one of the tvpads to a friends house today and see what happen there.

Maybe Time Warner is the issue here. TVPad uses P2P for all the live streams, so could it be that they are throttling your bandwidth ? On the other hand, maybe your router is getting overloaded with all the P2P connections.

[TVpad2 - Uses too much bandwidth!](#)

by [Rofl](#) » Sat May 04, 2013 3:03 am

My parents purchased a tvpad2 a couple of months ago, and whenever they used it to stream live content, it absolutely crippled my 8Mbit network.

Now I've just upgraded to fibre broadband 38Meg, and although I have a larger proportion of the bandwidth reserved for my usage, I still experience intermittent slowdowns - particularly during gaming. I attribute the stutters to the upload speed being below par.

Is there anyway to limit the tvpad2's download/upload speed? If you have a higher broadband connection, will it automatically use the most bandwidth it can muster?!

TVpad is a bandwidth hog. The only way to limit it is configuring QOS on your router and set your own limit for up and down speed. However, not all routers have QOS settings.

I have 100Mbps up/down fibre connection, and I have no issues at all. So the answer to your question is NO, it will not use the most bandwidth it can get. It depends how many peers you have (see it like torrents). Actually the SopCast protocol used by TVPad is very similar to torrents, so the more peers you have the more upload bandwidth it uses. The only difference is that you can limit the upload speed with torrents, but not with SopCast.

It's difficult to say since you don't really know how much is the total upload unless you have a smart router or something like that. Anyway, there is no real HD on these devices, the source of the streams can be from an HD channel (e.g. ATV HD), but the streams themselves are SD quality. So I wouldn't worry about that.

Believe me, none of these devices have HD 😊 I'm pretty sure they never will if they keep using P2P networks.

[求助] Bandwidth Control [复制链接]

楼主 电梯直达

Is there anyway bandwidth control could be implemented in tvpad? Most ISP providers have bandwidth limits enforced and mines include both upload and download combined. We were way over the limit last month because my parents watch their tv for about 12 hours a day and almost 7 days a week. More than half the the bandwidth consumed was from upload. I am surprised that not many people complains about this in the forum.

If you let them on 7/24, your ISP will block you 100%. Some guys have discussed about THE FAIR USAGE POLICY already.

Thanks for the link to that. I couldn't find anything by just searching for "bandwidth". Like I said, they have it on like 12 hours a day. The main thing that I observed though is that the download speed is not too bad, it's the upload speed that kills. My max upload speed from my ISP is around 4Mbps and I am seeing just about that

much upload speed going through when the TVPAD is on. Which is why my total upload speed for the month way exceeded my download speed. If we have the option to limit that speed like bittorrent programs can, then we can manage our monthly bandwidth better.

Some (not all) routers can limit the upload speed at their QoS section. You can try to config your router accordingly.

TVPAD is based on internet bandwidth. There is limited thing you can do about it. If you are really concern with your internet bandwidth, get a satellite . And your problem is gone. :-)

No bandwidth issue, no low quality issue, no service interruption issue. Everyone's happy.

i can't seem to figure out how to use my tvpad as a USB media player. everything i read says it plays back alot of different file formats through usb, but i can't find the functions to allow me to do that. i inserted my usb drive with content on it into the tvpad, i have a check mark on the thumbdrive icon in the bottom right of the screen, but I can't figure out how to access the usb drive or play any of the content on it. can someone help? thanks and happy holidays!

Hello,

I had the same problem. Then my wife (who is Chinese) showed me that one must download media player apps using TVpad's app manager. The app for video playback is called Mvod. (For audio, it is called Mplayer. Apparently, you need a separate app to play audio files - I have not tried Mplayer myself.)

Once you start the app and point it to your USB drive, it will scan the drive and show you a list of files that can be played. If your drive has many videos, the scanning process will take quite a bit of time, which is really annoying. I do not think it is possible to disable the scanning process and instead ask the app to show you the drive's folder structure, so that you can navigate to the video yourself without TVpad wasting time with figuring out a complete list of video files on the drive.

Good luck,
Ales

Kitabata, thanks for the review. I could be wrong, but it sounds like you have a pretty busy network with xbox, HTPC, slingbox and possibly other computers and pda on your network. The issues you are having with TVpad can probably be fixed by simply rebooting the router to clear the DHCP client table. As for your app loading slow, it's also internet related. TVpad is a bandwidth hog because it takes up both download and upload streams. So if you have other devices on your network it will affect TVpad's performance and vice versa. If you are using TVpad, other devices on the network may be affected. Hope after a few days of use, you can give us an update.

Sorry for late reply, I was away. My network is clean, only the TVpad has problems and although I didn't mentioned it before I don't run all the devices at the same time. I upgraded to fw 3.24 from 2.62 same problems. I have connected directly to my router bypassing the wireless bridge and it works better. Same ***** sound though. Now it's just a waiting game wondering if or when the TVB channels get blocked.

You can download the recorder app for TVpad M121s or M121. It records to SD card, USB or Network Share! You can play the recorded file using TVpad or VLC player on other devices.

My only wish is that you can set it to work like a DVR to wakeup and record at a certain time, on a certain channel, from a certain app, for a certain amount of time. I am *certain* that would be a great feature. 😊

They say their servers were hacked a few days ago. This is affecting some users from connecting or reconnecting after a power down.

I just got one and after troubleshooting it and going over all the settings over and over. I almost gave up for the day. But a message popped up during the network test saying that the server had been hacked and people are still being affected from connecting. I ran the network test another 2 times then it finally connected. It is working now but I am afraid it won't connect again after I power it off and on.

I couldn't get the wireless to work. It would see the network SSID but wouldn't connect. I even put in the network settings manually but it still wouldn't connect. Resorted to ethernet. And before anyone asks, Yes, I know how to setup a router and client devices such as laptops, tablets, media players, etc.

Anyone know how to jump through multiple files? Some of the recorded VOD stuff has several hundred files and I dread having to push the down button a couple hundred times to get the file I want.

I have heard conflicting remarks about whether the TVpad 3 uses a lot of upload bandwidth. In one stance, I was told the content you stream / download to watch is fed out again to share with others. In another instance, I was told there was only download streaming and no upload. Can anyone shed some light on this?

From what some people have posted online, that is pretty much how it works. It is sort of like peer to peer sharing/*****. When you are watching something the TVpad buffers some of the video and it is transmitted to other TVpad users.

It doesn't seem to use a tremendous amount of upload bandwidth but this could change when more people or less are watching the same thing.

I have noticed that it does use a lot of bandwidth in general. With the TVpad going I can browse and such on another machine without too much problem. This is on a cable internet connection.

FAQ

1. Do I have to pay shipping costs when I buy the machine on the official website?

The shipping costs are free for a lot of countries. See the table below (source is tvpad official website). Also, you can see your tracking number in the account you have signed up for during the purchase process.

	Shipping Group	World Shipping (days)
United Kingdom & Ireland	1401	3-5 business days
Other EU member & EFTA countries	1402	3-5 business days
International destinations	1403	3-5 business days
Russia/China	1404	3-5 business days
Australia	1405	3-5 business days
Japan	1406	3-5 business days
North America (USA & Canada)	1407	3-5 business days
South America (Argentina, Brazil, Chile, Colombia, Ecuador, Mexico, Peru, Uruguay, Venezuela)	1408	3-5 business days
Central America (Costa Rica, El Salvador, Guatemala, Honduras, Nicaragua, Panama)	1409	3-5 business days

Other destinations	1414	3-5 business days

2. Do I have to pay import costs/tax?

The vendor will put a very low value on the package, but there is still a chance that you have to pay import costs/tax if the customs does not believe the low value of the machine. Also, the import duty rule (pay tax if the value is over a certain threshold) can differ for each country, so check your customs website about this.

3. What is the after-sale service when you buy the TVpad on the official TVpad website?

You can return the machine within 7 days or exchange the machine for a new one within 15 days if the machine is faulty. Also, this machine has 1 year warranty. If you want to return the machine, put the return receipt in your package and state the following information: your name, order number, registered ID (e-mail and nickname) and returns reason. Before sending back, I still advice you to make contact first with the customer service.

4. Do all WiFi network adapters/dongles work on the TVpad?

The answer is no, not all WiFi network adapters work on the TVpad. The vendor recommends the Netcore NW360 WiFi adapter. An user reported that the following WiFi usb adapter also works on the TVpad: [WiFi usb adapter](#). The vendor also have mentioned that WiFi USB adapters with RT3070 or RTL8192SU chipset inside will work on the TVpad.

Note: it's best to use a wired connection , more stable in my opinion compared to a wireless connection, but you can always try the WiFi network adapter first. Please be aware that there is no built-in wifi chip inside the TVpad M121S or in the M121.

A low cost RJ45 cable would work if you don't mind the long cables in your house or you could buy powerline adapters (at least two are needed). I must tell you that some people have some problems with the wireless connection (connection not stable enough), so my advice is really to use a wired connection.

[TVpad2 \(TVpad M233\) Blog](#)

There is a WiFi chipset built-in inside TVpad2 (TVpad M233), so you don't need to buy an external WiFi USB stick anymore.

5.1 How to get TVpad working for the first time (short tutorial)?

First, the following items should be included in the TVpad retail box: TVpad set top box, instruction brochure, power adapter, remote, av cable, hdmi cable and 8GB microSD card. After you have connected the TVpad with your TV and started it up, you will be asked to enter a three digit number shown on the TV screen. Type in that number using the remote control. After that, you will be able to configure your settings. (Edit: there is only 4GB microSD card instead of 8GB in the M121S package and TVpad2 (TVpad M233)

5.2 How to install/un-install the apps on the TVpad?

No apps are installed when you start the machine for the first time. After you have configured your settings, you can install the apps by going to "App manager" in the main menu. In the "TVpad store" (first tab)(this can be found in firmware 3.0 or higher), you can find all the apps. Choose the app you would like to install and press "OK" in the remote control. You can un-install an app by going to the "Installed apps" tab. Go to the app you would like to un-install and press "OK" in the remote control.

Apps can also be installed using an USB-stick. Connect your USB-stick with the apps on it with your TVpad and go to "App manager" in the main menu. Go to the third tab ("Others") and there you will find all the apps you would like to install. If you have TVpad2 (TVpad M233) device, then it is normally not possible to install TVpad apps using an USB-stick (there is no third tab). However, you can use some software to allow apps installation using an USB-stick.

6. Will the TV apps work forever?

No, there is a chance that some of the apps won't work in the future.

7. What kind of Internet connection do I need for the TVpad?

At least a download speed of 2 till 3Mbps is going to be needed, 3-4Mbps is more on the safer side. Be aware that these livestreams also uses your upload connection, so you are downloading as well as uploading at the same time. Thus, this could affect your Internet browsing or gaming experience. Maybe your router has the option to limit the upload speed.

8. Do I have to pay a monthly/yearly fee for this device?

No, you don't have to pay a monthly/yearly fee for using this device.

9. How to switch video output from AV to HDMI and vice versa?

Normally, you can switch the video output in "Settings" --> "Video Setting". You can also switch the video output by pressing F1 button for a couple of seconds on your remote control and wait for a couple of minutes. Try this method when the TVpad is turned on and you are only seeing a black screen on the TV. You can switch between PAL and NTSC by pressing the F2 button for a couple of seconds on your remote control.

10. How is the quality of the livestreams and are they stable (without lags or stuttering)?

Generally speaking, the quality of the livestreams is average (they are not HD quality), but still good enough to watch. In the past 11 months, I haven't experienced lags/stuttering, so the livestreams are quite stable.

11. How much is the data usage when the TVpad is turned on?

Since not all the TV livestreams are of the same quality (bitrate can differ), I can only mention a rough estimate of the data usage when you are watching a TV livestream. Watching a livestream for 10 minutes is about 63MB of data usage. This can be higher or lower depending on the livestream you are watching.

12. How to see the channel list within an app?

Press the "Menu" button on your remote to see the channel within the app. You can also change a TV channel by using the up and down "arrows" buttons on your remote and then press the "OK" button.

13. How to update the TVpad apps?

It does not happen often that you need to update the apps. New TV channels can be added by the TVpad management without updating your app. When there is a new update of an app, you need to download the app again and install it again (un-install the old app first). In firmware version 3.0, the system will notify you to update your app.

14. What are the differences between the TVpad M121S and M121? (TVpad M121S vs M121)

The TVpad management only mentioned that the CPU inside the M121S is the TCC8902 and there is 256M RAM inside the M121S. The CPU inside the M121 is the TCC8901 and there is also 256M RAM inside the M121. Searching the Internet for more information about the CPU, it can be noticed that the CPU core is the same between the TCC8902 and the TCC8901 (see this [link](#) and this [link](#)). They are both clocked at 800MHz.

The GPU is also the same.

Furthermore, M121S has firmware version 3.0 which allows you to watch more foreign channels (Korean TV streams) and it has more video on demand apps. Current M121/120 owners can update their firmware in the future to 3.0 to have the same features as the M121S. It seems that TVpad M121S has only a newer firmware version.

15. What are the differences between the TVpad M311 and M121S?

TVpad M311 was a device similar to the M121, but it was targeted to Koreans living overseas. Instead of Chinese TV channels, the TVpad M311 has Korean TV channels and Korean on demand content. Some while ago, the TVpad management discontinued the M311 (not for sale anymore) and allowed the TVpad M121S to watch Korean TV channels and Korean on demand content.

16. What is the system interface language?

The following languages are available: Simplified Chinese, Traditional Chinese, English, Korean and Japanese. Korean and Japanese language are only available in firmware version 3.0

17. What kind of video's can be played by TVpad?

TVpad can play video's with the following codecs: H.264, MPEG 1/2/4, VC-1, Real Video 8/9/10, H.263.

18. Can I watch two different live channels at the same time with only 1 TVpad?

No, that's not possible. You will need 2 TVpad units to be able to watch two different live channels at the same time.

19. Is it possible to buy a new remote control when the old remote control is broken?

Yes, that's possible. The market price for the remote control is \$15 dollar and you can buy it on the official website. You can also use your Android phone as a remote control by installing the remote control app or you can use an Harmony One remote.

20. I am getting a "user does not exist" message (this could happen to TVpad users with firmware 3.0 or higher).

What should I do?

It could be your Internet connection. Test whether your Internet connection works or not. Maybe your Internet cable is somehow disconnected (if you are using a wired connection). Also, try to restart your TVpad if you are getting the user does not exist message, this may help.

If your Internet connection does work fine and you have restarted your TVpad, then you may have a bigger problem. Your TVpad could have been blacklisted/banned. Contact the (online) customer service on the official TVpad website to unban your TVpad by mentioning your problem and the MAC address of your TVpad (this unique MAC address can be found beneath your TVpad)(customer service e-mailaddress: service@tvpad.hk). You can also use the chat service for help (see the next question) If you have bought this device from a dealer/reseller, then this dealer/reseller could have reported to the TVpad customer service that the TVpad device (sold to you) does not work (while it could be working fine). The dealer/reseller will then get a new one from TVpad in return.

There is also a possibility that there are some problems with the authentication server of TVpad (causing the "user does not exist" message), anyway you should still contact the customer service on the official site about your problem if the problem exists for more than 1 day.

21. How can I contact the customer service for help?

You can send an e-mail to the customer service (service@tvpad.hk) or you can chat with the customer service on the following site: [Chat with the customer service](#)

You can type your question/problem in English in the chat box, but they may answer only in Chinese. Use an online translator to understand their response to your question/problem.

22. How to reset or restore the TVpad M121S to factory settings?

You can reset or restore the TVpad M121S to factory settings by going to "Settings" in the main menu. Then, go to the tab "Factory Default" to restore your settings.

23. Can I use the TVpad on my computer (PC)/laptop?

If your PC monitor or laptop has HDMI input connection, then you can use the TVpad also on that device.

24. What are the differences between TVpad M233 (TVPad2) and TVpad M121S?

TVPad M233 (also known as TVPad2) has a better CPU and GPU compared to the older model (TVpad M121S). A better CPU and GPU does not mean that the livestreams or video on demand content of the apps are of better quality compared to the older model. A better CPU and GPU in the TVpad M233 model decreases the start-up time of the machine.

Case 2:15-cv-01869-SVW-AJW Document 23-4 Filed 03/16/15 Page 264 of 264 Page ID

TVpad M233 (TVPad2) has also built-in WiFi chipset inside, so you don't need an external WiFi USB stick anymore. There is no built-in WiFi chipset inside TVpad M121S. Furthermore, you can play games on the TVpad M233 with the game controller (game controller is provided if you fill in the gift code 14696673 in the order form on the official website). TVpad M233 will also have VoIP support in the future.

The amount of TV apps is currently the same for TVpad M233 (TVPad2) as well as for TVpad M121S.
